Establishing Your Health Goals

Personal Message Before You Begin		
Before you begin our journey together, I would like to discuss something very important that will have a major impact on your ability to recover and achieve maximum improvement. After many years in private practice, I have had the opportunity to work with thousands of patients and have seen many patients achieve significant improvement while others have become frustrated and failed in their attempt to get well. After careful review, I have discovered the reasons why some people succeed and why others fail. This questionnaire is about much more than eliminating your symptoms – it's about living a life of vibrant health.		
I've discovered that any discussion of the correct way to achieve health and stay healthy is, in actuality; a discussion of how you have lived your life up to this point and how you will live it in the future.		
Therefore, to help you make significant changes in your present health, I want to ask you a few very important questions. I want you to be honest with yourself and really dig deep inside yourself for the answers.		
1. Have you made the decision to change? To do what it takes to get well?		
Yes No		
I have read something interesting: "The definition of insanity is to keep doing the same thing and expecting different results". If you keep following the same course of treatment you have been following will your results really change. Have you ever wondered if you are on the right path to achieving optimal health? Sometimes it requires taking a new and improved road to reach your destination.		
Most people I ask tell me they're made the decision to change. But how many people have truly decided to change? Very few! Why? Because there is a big difference between deciding something and having "reasons" to actually do it.		
When you have made a decision to make a change and you know your reasons, you create an internal power that can propel you to achieving health and wellness. So now I ask:		
 List up to 5 things that you have <u>been unable</u> to do as a result of your present symptoms. Please be specific. (Use extra pages if necessary)
